March 11, 2024

To our KB Community:

This winter, we've encountered numerous obstacles presented by Mother Nature, including above-freezing temperatures and abnormal weather conditions. Despite these challenges, your enthusiasm and dedication have remained steadfast, inspiring and motivating us every step of the way.

Due to the most recent warm temps and rainfall, our team made the difficult decision to conclude the '23-'24 season a little earlier than usual. We understand that this is disappointing news, but please know that this decision was not made lightly and came about with the safety and well-being of our guests and staff as our top priority.

Kissing Bridge wouldn't be the vibrant community it is today without your continued support. Your passion for skiing and snowboarding is truly the heartbeat of our resort, and we are profoundly grateful for the opportunity to serve you both on and off the slopes.

As we bid farewell to another winter season, we look forward to our several projects that will improve our ability to tackle any obstacles Mother Nature throws our way next winter. Until then, we will be having an off-season event series: Summer on the Slopes, kicking off with Kissing the Sky on Monday, April 8 for the solar eclipse. We eagerly await the opportunity to welcome you back for even more adventures on the slopes.

Sincerely,

Richard Fanelli
and the Kissing Bridge Team
