A VARIETY OF TERRAIN

Kissing Bridge has 39 slopes spread out over 700 acres. There's lots of great terrain perfect for the beginner or intermediate skier or rider, plus several challenging slopes for advanced. Serviced by 9 lifts, it is easy to see that at KB you will spend more time on the slopes and less time in the lift line.

SNOW CONDITIONS

Don't be misled if there is no snow in your backyard. Kissing Bridge is well known for its snow quality, depth and grooming. We are located in Western New York's famous Colden Snowbelt, with an average annual snowfall of about 180 inches. Couple this with our extensive snowmaking capacity and you will see why KB skiers enjoy more skiable snow....all winter long!
